Agile Occupational Medicine, Redding		1710 Churn Creek Rd., Redding CA 96002 - 0236	

Telehealth Statement: I advised the patient that this visit will be performed using a HIPAA compliant telehealth tool, including a live video connection between the patient's location and my location. I answered all the patient's questions, and the patient gave his/her consent for telehealth visit. Subsequently, I performed consultation using telehealth and live video conference. I performed a virtual musculoskeletal or neurological examination based on specific set of guidelines to enhance the information obtained when evaluating the musculoskeletal and neurological systems. Most of these tests are based on validated physical exam maneuvers under my observation. History of Present Illness

Patient is a 43 year old female.

Failed medial branch blocks involving upper and lower cervical spine on 4-6-23 by Dr Sabet.

Ms. Petrey had about 30% pain relief for a few hours, had increase in lower neck pain and dizziness for several hours Ortho Dr O'Sullivan has recommended 1 to 2 level FDRs if all other conservative therapies fail; approved for massage x 9 visits, but referral never sent; appt pending; scheduled for cervical Botox injections with Dr Monroe 8-28-23

SCHEDULED TO SEE Dr. SABET next week who will manage her pain with a different injection.
